

Risk Strategies for Life Science

Working hand in hand with CFOs and General Counsel.

Licata Risk works with life sciences companies and executives, bringing the clarity of thought and intensity of effort required to fully protect you personally and professionally.

— We work hand in hand with CFOs and General Counsel.

Advisors, not brokers — a different model

- No conflict of interest; complete transparency
- Detail to the deepest level
- Disrupting broker control and making them compete for your business
- Negotiating insurance policy language

Risks

Licata Risk works to protect you from the risks that threaten Life Science companies, including:

- Directors & Officers (D&O) Liability
- Products/Professional Liability/Clinical Trials
- Contractual Liability
- Cyber Risk/Loss of Data/Privacy/HIPAA
- Business Interruption including research in progress
- Global/ Political/Supply Chain risks
- Intellectual property

Proven Return: ▪ Optimum protection of assets, revenue and reputation

- Lowest cost of risk including lowest insurance premiums
- Proven return on risk management investment

*You've come this far – don't
let risk stop you now!*
